

Get great pictures  
without traveling far from home.

- **New Wide Bore MRI** (left) gives you room to feel at ease. Not only does it help relieve anxiety and prevent feelings of claustrophobia, but it's also spacious enough for larger patients to rest on comfortably.

- **New 64-Slice CT Scanner** (left) creates detailed images with higher quality and offers faster scan times.

- **New GE Ultrasound Unit** (right) provides quality images and a comfortable patient experience for a wide range of diagnostic needs.

When you need imaging services, your comfort and convenience are very important to us. And the new technology in our Outpatient Imaging Clinic can make your whole experience more pleasant. Images are read by dedicated radiologists. Costs are lower than you might expect. And it's all available close to home. **To find out more, visit [SpringsMemorial.com/Imaging](http://SpringsMemorial.com/Imaging). Or call us at 803-313-3170.**
